2020

RAPID RESPONSE TEAM  
GLOBAL DISASTER RELIEF

[brenda@legionforlife.com](mailto:brenda@legionforlife.com)

# LEGION FOR LIFE MISSION

- Identify and develop a highly trained Rapid Response Team sourced from the Combat Elite Veteran community
- Rapid Response to global crisis. Boots on the ground in 24-72 hrs
- Emergency response, disaster risk management planning
- Drone mapping & aerial assessment, data collection & communication
- Execute first response search and rescue
- Provide first in, safe and controlled, medical, food, water, shelter
- Repair and prepare through premier regenerative medicine, mentorship and training

## MISSION

### **Purpose driven employment for combat elite veterans.**

Legion for Life will identify and develop a highly trained, deployable, multi-disciplinary emergency workforce sourced from the Special Operations Veteran community. Legion's Rapid Response Team is an expeditionary, fast action force that can rapidly respond to disaster and humanitarian crisis within the U.S. and abroad. All Legion team members will remain deployment ready (including medical clearances) and will complete safety, security, technical, and contextual training. We intend to maintain 25 full-time first responders with an additional 100 surge staff ready to deploy within 24-72 hours. We intend to grow to 1000 elite responders worldwide by 2025.

Legion Rapid Response Team will coordinate and partner with both national and international organizations that respond to humanitarian crisis. This includes the U.S. Agency for International Development (USAID) (OFDA), which is responsible for leading and coordinating the U.S. government's response to disasters overseas.

The Legion Rapid Response Team is supported by cutting edge regenerative medicine and world renown mentors and coaches to ensure ongoing, "peak level" physical, mental and psychological readiness.

## OBJECTIVES

**Combat Elite are a chosen few who rise above all others.**

They conquer extreme training and then deploy to the most complex theaters and scenarios. They command the highest level missions and manage millions of dollars in equipment with supreme competence. They risk life and limb for freedom for all. They exit with invaluable experience, wisdom and an elevated understanding of global challenges. And, they carry the weight of war and combat.

We help reframe their life vision toward a new purpose driven career they help form, plan and execute. We partner with global foundations and agencies that support humanitarian missions. We leverage our collective experience and proven competency to evaluate current challenges and develop solutions, strategies and response initiatives. We deploy our Legion team on missions in support of worldwide humanitarian and environmental need and objectives. We nurture our elite team's intelligence and creativity and foster entrepreneurship through solution based product and services development. Legion for Life strengthens their bodies with the worlds most powerful regenerative medicine. We support brain health with cutting edge neuroscience and nueroplasticity recovery. We elevate their life mastery with world renown training and personal development.

# Repair and Prepare REGENERATIVE MEDICINE

- **Neuroscience and Neuroplasticity Recovery**
- **Hyperbaric Oxygen Therapy**
- **Photobiomodulation Light Therapy**
- **Pulsed Electromagnetic Therapy**
- **Heavy Metal Detox and Chelation**
- **Cryotherapy and Infrared Therapy**
- **CVAC Cellular Fit Pods**
- **IV Therapies and NAD**

## REPAIR AND PREPARE

**Our multi-modality approach to recovery is supported by the most advanced and relevant research available today** and is focused on optimal health and peak performance. Each medical modality is effective on its own but combined they create an effective platform for designed recovery and wellness. Legion will provide the worlds best products and services on an ongoing basis to ensure sustainable recovery and performance for our combat elite team.

We are committed to promoting research and education by documenting our team's success stories and sharing them through digital platforms, industry events and publications. Legion will fast become a beacon of hope for our combat community, and a source of education for alternate and regenerative protocols and purpose driven recovery strategies.

There is no more deserving community than our combat elite veterans. They deserve to live extraordinary lives beyond their military service. Their families deserve to experience their combat veterans as the healthy, thriving, heroes we know they are.

# WE EMPOWER PEAK PERFORMANCE

**Combat Elite push themselves to be the pinnacle of human performance.** There is no greater human force than the special operations teams of the US military. Peak performance is their natural state and we intend to help them stay there. Our mission provides careers designed to inspire our teams. This helps drive a desire to be healthy. Building a rapid response team focused on humanitarian need and “life” driven missions creates a grand purpose they can focus their incredible experience, talent, strengths and abilities on.

Legion provides, at no cost, access to cutting edge regenerative medicine and personal and professional coaching in support of their ongoing development.

We know combat elite veterans are extraordinary and courageous. We want to help them repurpose this and build lives and careers fueled by the greatest mission of all, the mission of *saving* lives.

# Access to the Best RENOWNED COACHES AND EVENTS

- **TONY ROBBINS**

- **Unleash the Power Within**
- **Business Mastery**
- **Date With Destiny**

- **VISHEN LAKHIANI**

- **Code of the Extraordinary Mind**
- **Mindvalley University**

## PERSONAL AND PROFESSIONAL GROWTH

**Legion For Life team members attend events that provide the best in personal and professional training to help elevate them to their best, mentally, physically and emotionally.**

**Tony Robbins** - Legion founder, Brenda Dorne, has spent years working with Tony Robbins in support of our US military veteran and wounded community including supporting active duty personnel and their families who were serving in and returning home from our war in Afghanistan. Brenda, in participation with the US military, has sponsored many active duty and veteran combatants and their families to attend Tony's events. Tony has provided free event tickets to all his events. Tony has consistently proven his unwavering commitment to our active duty and veteran communities.

**Vishen Lakhiani** and his company **Mindvalley** are a powerful resource for personal growth and empowerment. Mindvalley teaches the art of living fulfilling and happy lives. Mindvalley University is an event held abroad for 3 weeks and gives Legion for Life a platform to provide the Legion for Life team members and their families with a phenomenal personal and professional growth experience. Mindvalley provides online education for personal growth.

**Purpose Driven**

**Heroes 4 Life**

***WE MUST FIND A BETTER SOLUTION FOR VETERAN SUICIDE (STILL 22 A DAY)***

For over a decade, hundreds of millions of non-profit dollars have been spent on solutions that have **FAILED TO CHANGE** the haunting statistic that **22 veterans die by suicide every day.**

**And suicides rates related to our Special Operations community TRIPLED in 2018.**

Legion For Life teams are training to conquer humanity's most complex challenges. We intend to play a leading role in finding solutions to the challenge of veteran suicides beginning with providing purpose driven careers and cutting edge recovery and training.

***This is our Legacy. Legion For Life Foundation***

## Purpose Driven ENTREPRENEURSHIP

- Empowering creative thinking and collaborative development while designing and deploying response initiatives
- Leveraging Legion's experience and intelligence for solution based product development
- Promoting entrepreneurship within our Legion teams by creating veteran owned companies around product and service solutions

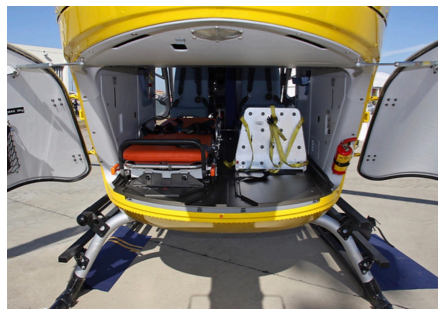

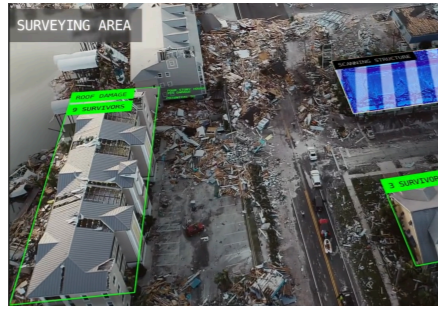

## SPECIAL OPERATORS ARE THE ENTREPRENEURS OF THE MILITARY

"Elite units include the Navy SEALs, Army Special Forces ("Green Berets"), Marine Corps' MARSOC (formerly "Force Recon"), Army Rangers, and others. Units like this are selective and tough. The warriors in these units are highly trained and, as a result, they are given liberties and discretion that other military units do not have." [forbes.com](https://www.forbes.com). This unique training, independence and self driven competency gives them a distinct advantage when starting and running small businesses.

A long term goal is to provide entrepreneurial training to help our veteran community build small businesses that provide sustainable jobs for our transitioning community. Legion For Life Foundation hopes to develop a legal and investment practice in support of our veteran owned companies that could help create long term sustainability for our community and the Foundation.

Legion For Life Rapid Response Teams will be inspired to find remedy and solutions to the challenges we face as a fast action response team. These novel ideas and solutions developed by our teams will drive inspiration for small business development and entrepreneurship. Legion intends to cultivate this and our next generation of veteran owned small businesses.

# USE OF PUBLIC FUNDS

## RECRUIT - REPAIR - PREPARE - IMPACT

- Candidate acquisition and employment
- Regenerative medical treatment
- Development and training
- Rapid Response Team personal gear
- Equipment for: Expeditionary/rapid response, communication, drones, vehicles, aircraft and watercraft
- Humanitarian response consumables including medical supplies, food, water, temporary shelter, blankets and rescue kits
- Command and control team
- Impact Documentation
- Administration
- Minimum overhead
